PRODUCT DATA

KS 13		
Length, width	mm	3000 x 13
Corrosions class		C1
KS 15		
Length, width	mm	3000 x 15
Corrosions class		C1
KS 26		
Length, width	mm	3000 x 26
Corrosions class		C1

AREAS OF USE:

Galvanised steel edge protector. The edge protectors are used on plasterboard edges that have exposed joints or where the joint is filled with compound sealant. The profile is fitted over the board before installation.

KS 13 and KS 15 edge protectors are intended for single board layers and KS 26 for two layers.

The profile is mitred at corners.
