

Date: _____

	Dealer	Professional installers	Architect
Company	_____	Contact person	_____
Street	_____	Telephone	_____
Zip code/Town	_____	Email	_____
Object	_____		

System

Cubo Basis	Room-enclosing only, no superimposed loads		
Cubo Empore	Conditionally walkable	Static loads $\leq 0.5 \text{ kN/m}^2$	
	Static loads $\leq 1.0 \text{ kN/m}^2$	Live loads $\leq 2.0 \text{ kN/m}^2$	
Cubo Escape Tunnel	Exterior impact 3000 Nm stress resistance for ceiling and wall, without static loads		
Dimensions	Internal dimensions	External dimensions	
	Length _____ mm x Width _____ mm x Height _____ mm		

Building physics and structural demands

Fire resistance	without		
	F30 interior and exterior	F30 from interior only	F30 from exterior only
	F90 interior and exterior	F90 from interior only	F90 from exterior only
Sound insulation	without	\geq _____ dB ($D_{nT,w}$)	
		($D_{nT,w}$ = weighted standardized level difference in dB)	
Additional loads	Multi-level ceiling system _____ kg/m ²		
	Additional floor construction _____ kg/m ²		
Wall profiles	CW 75/MW 75	CW 100/MW 100 (electrical installation possible)	

Application

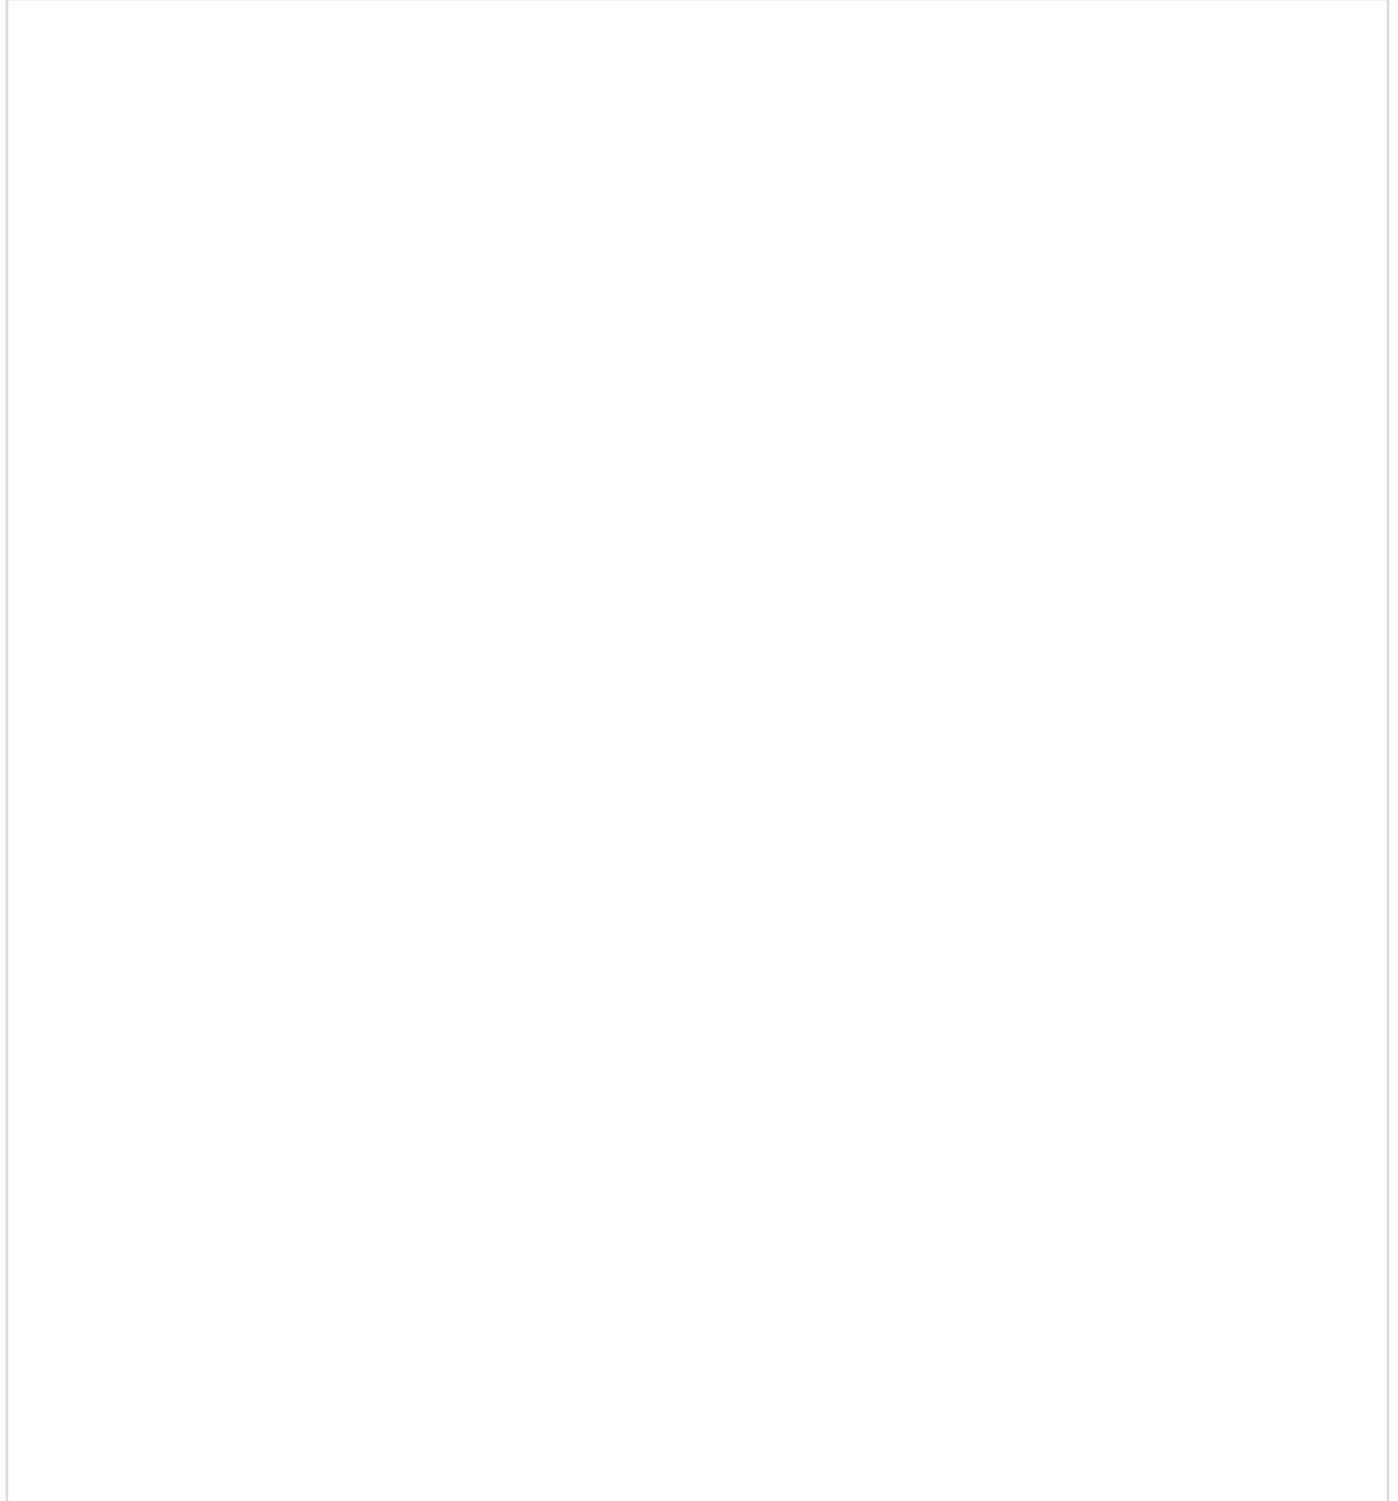

Detached	Detached in front of existing component		3-sided	3-sided	2-sided
	Short side	Long side			
1) Furring					
Connection to solid wall		Connection to drywall / Wall type W _____		Connection to _____ (e.g. sandwich element)	

A schematic representation is mandatory!

Please include scaled floor layout and sectional drawings with the requirement sheet.

and/or

Sketch with dimensioning and representation of the positions and size of the openings.

Only a **fully filled out** requirement sheet can be processed!

Fill out and send to **Knauf Direkt**
Technical Advisory Service:

Email: Knauf-direkt@knauf.de
Tel.: 09001 31-1000 *

* A call to Knauf Direkt is charged at 0.39 €/min on a land line in Germany. Callers whose phone numbers are not registered within the address data base of Knauf Gips KG (e.g. private builders or non-customers) will be charged a rate of € 1.69 per minute on a German land line. Calls from GSM phones will be charged depending on the tariffs of the network operator.
