

We...

- Recognise that sustainability is critical to the long term success of our organisation and are committed to continual improvement.
- Understand that reducing our impact on the environment is an essential company value and a key component of the way we do business.
- Will communicate and listen to our stakeholders' feedback, and our compliance with applicable legislation is a foundation of our commitment.
- Will be efficient with our use of energy and use natural resources responsibly, including conservation of water.
- Will recycle or reuse materials wherever possible, prevent pollution and continue to reduce waste and emissions, targeting zero waste to landfill.
- Actively monitor, analyse and audit our environmental performance including benchmarking and the adoption of best practices.
- Will engage with our supply chain to improve overall sustainability.

We believe that...

- Empowered workers will deliver sustainable outcomes, meet our obligations, and our stakeholder expectations.
- The design of our efficient products, systems and services take into account their impact on the environment and society over their lifecycle.
- Working collaboratively with our customers from design and specification through to project delivery.

Knauf is a major manufacturer and supplier of high quality sustainable building materials to the light weight construction industry in APAC, including plasterboard, compounds, cornice, acoustic design solutions, metal and associated products and systems.
