UPPDATERADE INNERVÄGGSBETECKNINGAR 2025

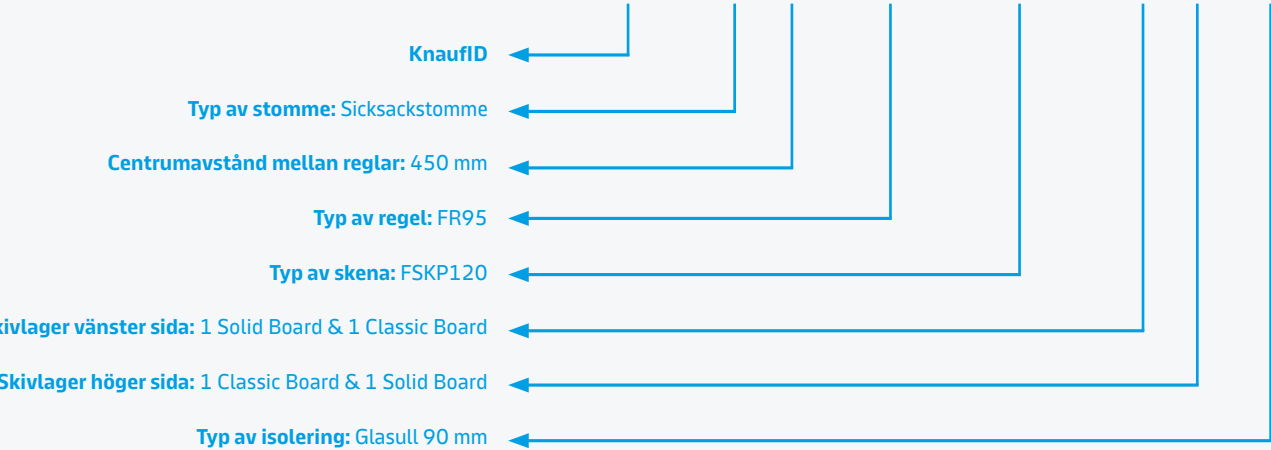

Under 2025 genomför vi en omfattande uppdatering av våra innerväggsbeteckningar för att ge en tydlig och detaljerad översikt över vilka produkter som ingår i varje väggssystem. Den nya beteckningsstandarden visar enkelt och snabbt vilka skenor och reglar som används. Detta gör det lättare att identifiera kompatibla komponenter, vilket underlättar både planering, montage och installation. Denna förändring är en del av vårt pågående arbete för att effektivisera din arbetsprocess och genom en mer strukturerad och informativ märkning blir det lättare att välja rätt komponenter och optimera montageprocessen.

Välkommen till ett enklare, mer informerat och effektivt arbetsflöde med våra uppdaterade innerväggsbeteckningar!
