## Knauf Sealing Tape

Knauf Sealing tape is a closed foam tape, self adhesive on one side, permanently flexible. It is recommended for the connection of flanking constructional components with the backside of the runners in drywall partitions. For sound and fire protection requirements the Knauf sealing tape is not recommended (use the acoustical or intumescent sealant).

# Knauf Sealing Tape

Material, Fields of Application, Properties

## Application Instructions

Application surfaces should be clean, dry and free from all contaminants like dust, rust, grease etc. Knauf Sealing Tape is a closed foam tape, self adhesive on one side, permanently flexible. It is recommended for the connection of flanking constructional components with the backside of the runners in drywall partitions.

For sound and fire protection requirements the Knauf Sealing tape is not recommended (use the Acoustical or FR Sealant). A purpose made self-adhesive strip which fills the sound bridge between the floor and metal tracks for partitions.

Roll Size		Packing Details		Material Code
Width (mm)	Length (m)	Thickness (mm)	Weight Per Piece (Kg approx.)	
50	25 m/roll	5	0.345	140191
75	25 m/roll	5	0.510	140193
