

Knauf Danotile

Knauf Danotile is a wipe clean, hygiene ceiling tile suitable for rooms with high cleaning requirements. Robust white foil covered surface tolerates cleaning and disinfection agents as well as pH levels from 2-13. Widely used in healthcare facilities, laboratories and kitchens.

Product-Data-Sheet

Areas of Application

S15/S24 visible grid

Compliance Standards

EN14190:2014

Key Benefits

- Tolerates tough cleaning and disinfection agents
- Withstands pH levels from 2-13
- Clean-room ISO 4 certified to ISO 14644-1
- Hygiene ceiling to M1 and M10 microbiological class (NF S 90-351)
Can be used with both S15 (15mm) and S24 (24mm) grids
- Demountable if access is required

Creation Date: 25/10/2023

Sustainability

Recycled Content

Pre-consumer recycled content: 12%

Post-consumer recycled content: 28%

Total recycled content: 40%

2024 average by weight for all acoustic products produced in Denmark, recycled gypsum & paper

Recyclability

This product is fully recyclable when separated from other waste and disposed correctly.

Substances of very high Concern (SVHC)

At the time of publication, under REACH UK and REACH EU regulations this product contains no SVHC. For more information please consult the Safety Data Sheet.

Volatile Organic Compound Content (VOC)

< 2g/l

Storage and Handling

No special education is required for safe handling. To be stored and used at temperatures below 50°C. Store indoors, in a clean and dry area on a level base protected from direct moisture with humidities of less than 70% RH. Wear clean cotton gloves when handling ceiling tiles to avoid fingermarks.

Packaging

Recycled cardboard wrapping, gypsum tile topper, FSC pallet, and recyclable PE shrink wrap around the pallet.

Service Life

60 years service life. Tested at 90% RH and 30°C. The product can withstand ambient temperatures of up to 50°C.

Disposal/Repair

Dust should be removed using a dry duster or vacuum cleaner. Marks can be removed with a damp cloth. Disposal should be in accordance with local authority requirements. European waste catalogue code: 17 08 02 Gypsum based construction materials, keep apart from waste that comes under 17 08 01

Health & Safety

When cutting, use dust mask if dust develops. Please refer to the safety data sheet for more information.

Application / Installation

Install grid, cut tiles to size from the front face with a fine toothed saw. Install the tile by tilting upwards between the T-profile. The added loads should not be greater than 3kg for each m² of ceiling. Where added loads are greater than 3kg/ m², additional hangers must be installed. For full installation instructions please refer to our website.
