

KNAUF

TOPIQ®
PRODUCT BROCHURE

Build on us.

A modern classroom with large windows on the left side, offering a view of a brick building. The room is furnished with white tables and red chairs arranged in rows. A whiteboard and a large screen are visible at the front of the room. The ceiling has recessed lighting and smoke detectors.

A COMPLETE RANGE FOR YOUR EVERYDAY PROJECTS

We believe that ceilings are an integral part of every interior. They help give us a wonderful sense of wellbeing and safety.

By combining form and function, ceilings enhance and protect the spaces in which we live, work, heal and grow. They balance acoustics and influence the way we think and feel. That's why we've created **TOPIQ®**, an acoustic ceiling that meets all your expectations: aesthetics, durability, ease of installation and excellent sound absorption.

The technology behind our **TOPIQ®** range is based on rock wool panels covered with a smooth, white acoustic fleece. The products in the range

stand out for their lightness, ease of handling, very good resistance to moisture, and high-quality sound absorption, thus meeting the varied requirements of your customers.

Knauf Ceiling Solutions offers two product variants, **TOPIQ® Prime** and **TOPIQ® Efficient Pro**, providing high levels of absorption to meet the particular requirements of each space.

INSTALLATION TIPS

- Easy to install and cut
- Non-directional surface
- Lightweight
- Easy to handle

7 REASONS TO CHOOSE TOPIQ®

STOCK AVAILABLE IMMEDIATELY

TOPIQ® is currently available in stock for certain references. We invite you to consult us to better meet your needs.

QUALITY SOUND ABSORPTION

Ideal for spaces where tranquillity and concentration are essential. **TOPIQ®** ensures an optimal sound environment, offering sound absorption of up to $1.00 \alpha_w$.

EXCELLENT LIGHT REFLECTANCE OF 88%

This feature optimises light reflection, offering significant energy savings while enhancing user comfort and well-being.

VARIED RANGE

Our tiles are available from stock in two thicknesses (20mm and 15mm) and 3 edge details (Board, Tegular 15/90, Tegular 24/90), offering maximum flexibility to meet your customers' specific needs.

SMOOTH, WHITE SURFACE

The surface of **TOPIQ®** is coated with a smooth white acoustic fleece and painted during our manufacturing process. The rear of the panel is covered with a fleece on the back.

EASY TO INSTALL

The non-directional surface of **TOPIQ®** allows quick and easy installation.
