

PERLIGRAN®

PERLITE – Optimal growth on a mineral basis.

CLASSIC:

THE ALL-ROUNDER
for all plants in gardens & free range.

MEDIUM:

FINE GRAIN FOR DELICATE PLANTS
for (new) lawn installations & young plants.

PREMIUM:

DUST-FREE PREMIUM QUALITY
for compressed air soil injections.
for planting in raised beds & pots.

EXTRA:

THE SPECIALIST
for demanding plants whose roots reward a loose, well aerated substrate.
suitable for hydroponics.

HYDRO:

IDEAL WATER STORAGE
for peat-free or peat-reduced substrates.
for light/sandy soils.
very fine grain – more water-bearing pores.
up to 40% water available to plant.
extends lifespan of soil.
improves root aeration.
